

CAMILO ZULUAGA VELASQUEZ

La Ceja, Colombia | hello@camilozuluaga.dev | linkedin.com/in/camilo-zuluaga-velasquez

PROFESSIONAL SUMMARY

Senior Front-End Developer with over 6 years of experience building scalable, high-performance web applications. Specializes in modern JavaScript frameworks, primarily React with TypeScript, alongside robust end-to-end testing practices. Proven track record of architecting front-end solutions, standardizing design systems, and driving engineering best practices within cross-functional teams to deliver maintainable enterprise solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, SCSS, SQL, PHP, C#

Frameworks & Libraries: React, Angular, Next.js (App Router), Redux, React Context, Tailwind CSS, Material UI, Styled Components, Framer Motion, Node.js

Testing: Jest, Karma, Cypress, Playwright, Jasmine

Cloud, Tools & Ecosystem: Azure DevOps, Cloudflare, Git, GitLab, Yarn, npm, pnpm, Jenkins, Figma, Jira, Copilot, Cursor, Antigeavity IDE, RSBUILD, Micro Frontends

Spoken Languages: Spanish (Native - C2), English (Proficient - C1), Japanese (Basic - A1)

PROFESSIONAL EXPERIENCE

Web UI Developer Senior | Globant LLC, Medellin

Feb 2022 – Jul 2026

- Architected front-end solutions and drove key technical decisions across multiple enterprise-level projects, ensuring scalability, performance, and maintainability.
- Drove migration to a centralized Design System, standardizing UI patterns and improving cross-application consistency.
- Modernized the build system by executing the migration from Create React App to RSBUILD, improving long-term maintainability.
- Implemented a comprehensive JavaScript to TypeScript migration, increasing type safety, code quality, and developer productivity.
- Optimized end-to-end testing strategy, reducing CI/CD pipeline execution time by 25% and improving release efficiency.
- Designed and implemented a scalable micro front-end architecture for inventory management solutions.
- Built a Back Office platform from scratch using Angular, defining modular architecture and reusable component strategy.
- Established robust testing practices, achieving full unit test coverage and implementing cross-application E2E validation with Playwright.

Web Developer | Owens Illinois, Medellin

Oct 2019 – Feb 2022

- Engineered internal applications using React and Node.js to automate business processes, significantly improving data visualization and operational efficiency.
- Spearheaded corporate website enhancements utilizing PHP, JavaScript, and SQL, developing custom plugins and modular components to extend core functionality.
- Architected and managed CI/CD pipelines in Azure DevOps, automating testing and release workflows to boost deployment reliability and delivery speed.

Lead Software Engineer | Dream House, Medellin

Mar 2019 – Oct 2019

- Developed interactive training simulators using Unity and C# for enterprise clients, delivering high-quality and performance-driven solutions.
- Led the web development team in launching the company's main website, overseeing full-cycle architecture, implementation, and deployment.
- Introduced and championed Scrum agile practices, improving team collaboration, delivery predictability, and project efficiency.

EDUCATION & CERTIFICATIONS

Eafit University, Medellin

2018

B.S. in Systems Engineering

Anthropic Certifications (2026)

- Claude Code 101
- Introduction to Subagents
- Introduction to Agent Skills

Coursera Certifications (2026)

- Google AI Professional: Gemini for Developers Specialization
